

Camp Stool Instructions

Setup time: 1 minute

Instructions:

1. Unfold the seat by grabbing the stool at the top and opening until canvas material is fully stretched.
2. Lower legs until they are as far down as they will go, which should result in the stool making an X. The canvas material should still remain fully stretched.
3. Bring chain and bottom latch points to center underneath the legs.
4. Push legs together, and latch them at desired tension.
5. When finished using camp stool, wipe off any excess dirt with a damp cloth.
